- FDA Cleared and CLIA waived

One-Step Early Pregnancy Immunoassay

The all new CLIAwaived, Inc. hCG Test is a qualitative immunoassay for the detection of human chorionic gonadotropin (hCG) in human urine for the early detection of pregnancy. hCG is a hormone produced by the placenta, which, in normal subjects, provides an early indication of pregnancy. Early testing and detection of hCG is vital for the health of mother and child, and to deliver reliable diagnostic information on which health care professionals can base optimal patient management strategies.

The CLIAwaived Inc. hCG Test, for the detection of human chorionic gonadotropin in human urine or serum to detect early pregnancy.
