Home INR Testing for Coumadin[®] Patients

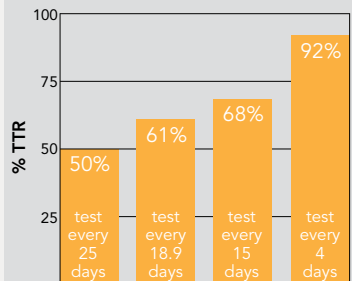

inratio²

Home INR Testing with the INRatio[®]2 PT/INR Monitor

Control and confidence for millions of people taking Coumadin

Keeping You In Range

More Frequent Testing Can Increase Time in Therapeutic Range (TTR)¹

Home testing provides the opportunity for more frequent testing, which means more data and a clearer picture of your PT/INR levels over time. This additional information allows you and your doctor to better manage your anticoagulation therapy.

Reimbursement

Medicare and most private insurers cover home testing for mechanical heart valve patients, atrial fibrillation and DVT.

No Waiting

at the lab...

INRatio2 is ideal for patients who find it inconvenient, time consuming and painful to be tested at the lab.

for results...

Get results in less than 1 minute instead of waiting hours or even days.

Simple Procedure

We understand that you want a simple, easy test. 3 basic steps are all it takes to get accurate results with INRatio2.

1. Turn on INRatio2
2. Insert test strip
3. Apply sample

Requires only a small, 1-drop sample from a fingerstick

Friendly Features

Individually Packaged Strips

Each INRatio2 strip is packed in its own sealed pouch, protecting it until it's ready to use.

No Refrigeration Required

Whether you're traveling, at work or at home, you can store strips at room temperature—test on your own terms without worrying about refrigeration.

The Confidence of Quality Control

Two quality controls are performed every time you test, giving you the confidence of reliable results.

Easy to Use

- > Single-button operation
- > Large LCD screen
- > Large digits/test results on screen
- > Long battery life, up to 200 tests
- > Small, lightweight, portable size
- > Open/flat dosing area for easier sample application
- > Streamlined, compact carrying case
- > Easy-clean smooth-coat finish

Be Mobile

INRatio2 is completely portable, allowing you to test your PT/INR levels when and where you want.

Take INRatio2 on vacation... No more worrying about finding a testing lab when you travel.

Reasons more patients are choosing INRatio2

- > **FIRST** to offer the reliability and stability of electrochemical technology in the PT/INR industry.
- > **ONLY** monitor with two quantitative onboard quality controls for optimal confidence.
- > **Easy to use**

What our customers are saying...

"So quick and simple to use... I love knowing the results instantly!"

"What a convenience...and painless!"

"Hooked on INRatio...it's so much better than going to the lab."
