

Med-Quest
Enterprise Health Screening

Are You Ready to Double Your Business?

- Health screening is going through a revolutionary change.

Are you ready to compete?

- You want to expand into new customers and programs.

Do you have a competitive advantage?

- Your customers expect flawless data collection, instant online information and data mining to reduce their healthcare costs.

Do you have the technology?

- You need to reduce your labor costs, while managing multiple programs, multiple locations and store it all securely.

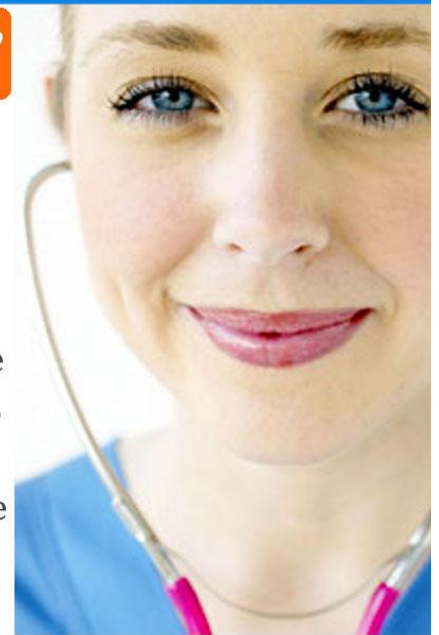

Do you have the budget and expertise?

- Your labor costs are your biggest expense.

Can you reduce your costs while increasing your accuracy?

- You are searching for a way to expand your business into larger programs.

Can you bid on larger programs, and deliver excellence?

Med-Quest™ provides answers; Med-Quest is a dedicated turnkey solution for health screening service providers. You utilize our software, servers, tools, technology and expertise without capital investment. You simply pay for what you use and watch your capabilities explode through the roof. Our system streamlines data collection and pushes the health screening experience to new levels. Med-Quest is branded for your company; it looks and feels like you developed the solution yourself. Best of all with Med-Quest you can compete for new customers in any size program against any other competitor and win hands down.
