

# AdenoPlus®

## Acute Conjunctivitis

### Rapidly diagnose acute conjunctivitis

Acute conjunctivitis affects nearly 6.9 million Americans each year, with 1 in 4 testing positive for the Adenovirus.<sup>1</sup> Approximately 50% of cases are misdiagnosed which could result in significant morbidity in patients.<sup>2</sup>

AdenoPlus is the first rapid, CLIA-waived point-of-care test that detects all known serotypes of Adenoviral conjunctivitis. An early and accurate diagnosis with AdenoPlus may prevent serious complications in the future and with AdenoPlus you can make a rapid, accurate diagnosis before the patient leaves your office.

#### Clinical benefits

- Identify, isolate and manage contagious patients, preventing spread to other patients and staff.
- Reduce levels of inappropriate antibiotic use.
- Reduce costs associated with acute conjunctivitis by 40%.

#### Fast and accurate

- Results in 10 minutes.
- 90% sensitivity and 96% specificity.

#### Easy and convenient

- Disposable test, requires just 4 easy steps.
- No additional equipment is needed to administer or interpret.

## 4-Step Procedure

Collect sample

Assemble test

Run test

Read results
