**Small Footprint**: 16.15 x 11.43 x 18.12

**Autoloader**: 16.94 x 13 x 18.12

**Weight**
- 19.6 Pounds - Open / Closed Vial
- 18.4 Pounds - Autoloader

**Power Consumption**
- 100VA
- (stand-by) 20VA

**Frequency**
- 50/60HZ

Choose The Analyzer That Best Fits Your Needs

3 Systems To Choose From

Open Vial Sampling System
Cap Piercing Sampling System
Autoloader Sampling System

What Differentiates The M SERIES

Accurate and Precise — Delivers excellent patient results.
Autoloader System — Provides an automated cost effective solution.
Bar Coding — Standard with all systems giving you positive patient identification and reduces transcription errors.
Zero — No daily shutdown, engineered to eliminate lengthy cleaning procedures.
Daily Maintenance — Highly reliable, excellent uptime record.

Automate Your Records & Data
Integrate a Data Management Package with your system.
- Easily interfaced to Data Management Systems
- Presently compatible with several systems on the market

Clinical Diagnostic Solutions is a global company that distributes high quality, cost effective hematology systems. Our commitment is to provide excellent products, ensuring accurate patient outcomes, safety and reliability.

Medonic M-Series
16 parameter, 3 part differential systems designed to provide fast, accurate and reliable patient results with ease.

Patient Outcomes
High quality engineering and technology ensures system precision resulting in sample accuracy. This concept and design will reduce repeats, send outs and manual intervention.

Simple to Use
Touch screen displays and on board step by step instruction makes operation easy. Bar coding, cap piercing and auto sampling reduce errors and ensure positive patient identification.

Cost Effective
Saves time and money with a complete system that is virtually maintenance free. It also eliminates the need for expensive consumables for handling finger sticks and reduces the need for service support.

Painful Finger Stick Technology 24/7, draw is all it takes
Eliminates the need for costly drawing devices

Patent Finger Stick Technology
