CLIAwaived,™ Inc.
URINALYSIS TEST STRIPS

This convenient dip-and-read test is a firm plastic strip to which various reagents are affixed. It tests up to 11 elements in urine.

- Results in minutes
- Easy-to-read comparison chart
- Room temperature storage

To order, call 888.882.7739 or visit CLIAwaived.com

Reimbursement Information: CPT Codes # 81000, 81001, 81002 and 81003QW. National Limit Amount: $4.45, $3.60.
The **CLIAwaived,™ Inc. Urinalysis Reagent Test Strips** (CLIA-X) are firm plastic strips to which several different reagent areas are affixed. Depending on the product, CLIA-X strips test for glucose, bilirubin, ketone (acetoacetic acid), specific gravity, blood, pH, protein, urobilinogen, leukocytes and ascorbic acid in urine.

**PROCEDURE INSTRUCTIONS**

1. Remove only enough strips from the bottle for immediate use and replace cap tightly.

2. Completely immerse reagent areas of strip in fresh, well-mixed urine. Remove strip immediately to avoid dissolving out the reagent areas.

3. While removing, touch the side of the strip against the rim of the urine container to remove excess urine. Blot lengthwise edge of strip on absorbent paper towel to further remove excess urine and avoid contamination from adjacent reagent pads.

4. Compare each reagent area to its corresponding color blocks on the color chart and read at the times specified. Proper read time is critical for optimal results. Obtain results by direct color chart comparison.

**DISCLAIMER:** The CPT information contained in this document is provided as representative examples of reimbursement in this category. It is intended to assist providers in accurately obtaining reimbursement for healthcare services. It is not intended to increase or maximize reimbursement by any payor. Providers should consult their payor organizations with regard to local reimbursement policies.
