**PROCEDURE INSTRUCTIONS**

The CLIAwaived,™ Inc. Fecal Occult Blood Test is recommended for use in routine physical examination, hospital monitoring for bleeding in patients, and screening for colorectal cancer or gastrointestinal bleeding from any source. It has over 98% specificity and sensitivity.

1. Shake tube vigorously to ensure a good liquid suspension.

2. Holding the tube upright, snap off the tip.

3. Dispense 2-3 drops of solution into the sample (S) well.

4. Wait five (5) minutes and read the result.

5. Read after 5 minutes

IMPORTANT: Results must be interpreted between 5-10 minutes. Waiting more than 10 minutes may cause the reading to be inaccurate.

⚠️ Please refer to package inserts for detailed instructions and technical information.
